G	Top panel with cable cutouts	1

From small businesses to government installations—SME preconfigured enclosures provide the perfect solution for small server, storage and communication racks. Available in 30U and 36U heights, these preconfigured solutions feature:

- Perforated front and rear doors to ensure proper cooling for IT equipment
- Mounting provisions on rear uprights for ePDUs and cable management accessories
- Adjustable rails with cage nuts for equipment mounting
- Key lock for security
- Casters to facilitate ease of transport/installation
- Removable side panels to facilitate cabling and equipment installation
- Cutouts in top panel for cable egress/ingress

Applications:

- Backup power enclosure
- Server cabinet
- Storage rack
- Communications rack
